EXPERIENCE

2015-PRESENT

FULL STACK WEB DEVELOPER

General Assembly, San Francisco, CA

Digital Darkroom -A web app where users can upload, edit, and download or share images on social media. This project showcases a strong emphasis in client-side Javascript and the ability to persist images in Amazon S3.

Find that project here.

Everest -A web app where users can create a mapped route based on elevation and slope. Users can choose between different modes of transportation and measurement while also customizing their slope and elevation on the created route. This app allows users to save and edit their routes from a database while also sharing on social media.

Find that project here.

2013-PRESENT

PHOTOGRAPHY INSTRUCTOR, *Rayko Photo Center, San Francisco, CA*

Teaching both analog and digital photography and printing processes at a dedicated photography space and gallery.

2013-2015

MEDIA ARTS INSTRUCTOR, *The Art Institute of California, Sunnyvale, CA*

Teaching and implementing digital photography and Adobe Creative Suite courses to undergraduate students at a private institution in higher education.

2009-11

CATALOG PHOTOGRAPHER, *QCI Direct, Home Trends, Chili, NY*

Working with a team of art directors and graphic designers to create imagery across three catalogs that reached over 45 million subscribers.
